

LEON BROWN

Staff Technical Writer

Information Architecture • Developer Documentation • Docs-as-Code • AI-Augmented Documentation
Columbia, MD • (717) 856-4454 • leon.brown@uafactor.com • linkedin.com/in/4leonbrown

PROFESSIONAL SUMMARY

Staff technical writer with 20 years of experience helping engineering organizations transform complex software into clear, scalable knowledge. Expertise spans observability, cybersecurity, enterprise software, endpoint management, and regulated medical devices. Known for improving information architecture, developer documentation, docs-as-code workflows, API documentation, and documentation strategy while partnering with Engineering, Product Management, UX, and Support. Regularly leverage Claude, ChatGPT, Cursor, and GitHub Copilot to accelerate documentation while maintaining editorial quality.

CORE SKILLS

Documentation Strategy: Information Architecture • Docs-as-Code • Knowledge Management • Editorial Governance • Content Strategy

Developer Documentation: API Documentation • SDK Documentation • Release Notes • User Guides • Installation Guides • Troubleshooting

Tools: Git • Markdown • Antora • AsciiDoctor • MadCap Flare • Oxygen XML • DITA • HTML • XML • XSLT • XPath • CSS

AI: Claude • ChatGPT • Cursor • GitHub Copilot

PROFESSIONAL EXPERIENCE

Staff Technical Writer | Grafana Labs (2024–Present)

- Led information architecture redesigns for Frontend Observability and Knowledge Graph documentation, improving scalability and discoverability.
- Shifted documentation from feature-centric to workflow-oriented organization through taxonomy, navigation, and URL redesign.
- Used engineering and customer support feedback to improve self-service documentation and reduce onboarding friction.
- Produced developer documentation for OpenTelemetry instrumentation, telemetry pipelines, dashboards, alerting, and troubleshooting.
- Integrated AI-augmented documentation workflows into production while maintaining technical accuracy and editorial quality.

Senior Technical Writer | Hologic (2023–2024)

- Served as documentation lead for breast screening and skeletal health products.
- Coordinated engineering change orders, labeling reviews, and regulated documentation deliverables.

Principal Technical Writer | Pegasystems (2021–2023)

- Authored Web Help and release notes for enterprise security administrators.
- Documented authentication, authorization, encryption, and compliance capabilities.

- Served as Scrum Master, coordinating multi-writer documentation delivery.
- Earned Pega Certified System Architect certification.

Senior Technical Writer | Tanium (2020–2021)

- Produced endpoint management documentation, release notes, and UI content in collaboration with Product Management and UX.
- Supported enterprise software deployment and patch management documentation.

Principal Technical Writer | ThreatQuotient (2017–2019; 2020)

- Designed and launched the company's Help Center.
- Authored API reference, SDK, integration, installation, release notes, and user documentation.
- Established Git-based documentation workflows, style guidance, onboarding documentation, and release checklists.
- Scaled the Technical Publications organization through recruiting, interviewing, onboarding, and mentoring writers.
- Promoted to Principal Technical Writer and later recruited back to continue strategic documentation initiatives.

Senior Technical Writer | RackTop Systems (2019–2020)

- Implemented a Docs-as-Code environment using AsciiDoctor, Antora, GitHub, and Markdown.
- Produced customer documentation and technical marketing content for cybersecurity storage products.

Senior Technical Writer | Cisco / Sourcefire (2011–2016)

- Led the migration to structured authoring, improving content reuse and consistency.
- Directed documentation initiatives across enterprise network security product releases.
- Configured security appliances to validate documentation accuracy; earned Sourcefire Certified Expert certification.
- Developed reusable online Help templates and publishing processes.

Senior Technical Writer | BAE Systems (2009–2010)

- Redesigned the Web Help system supporting Bureau of Labor Statistics applications.

Technical Communicator | Advantica (GL Industrial Services) (2005–2009)

- Produced documentation, training materials, and interactive tutorials for pipeline simulation software.
- Developed structured FrameMaker applications and publishing improvements that reduced costs and improved quality.

EDUCATION

University of North Carolina at Charlotte

M.A., English — Concentration in Technical/Professional Writing

B.A., English — Minor in Technical & Professional Writing

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Pega Certified System Architect • Registered Scrum Master • Agile Bootcamp • DITA North America Conference • Society for Technical Communication Summit
